We are candles and a whole lot more . . .

- Glass and Wrought Iron Candle Holders
- Floral Arrangements and Supplies
- Holiday Decorations and Gifts
- Candle Making Supplies

Thirty-Six Years of Lighting Up Customers' Lives

A Real “Mom & Pop” Store

Located in the rustic charm of the New Jersey Pines, Candle Factory Products has been providing its customers with high quality candles, candle accessories, gifts and holiday decorations since 1968. We are a small "Mom & Pop" store offering excellent products and lots of individual customer attention. As every holiday approaches, Candle Factory Products changes its stock and displays to offer the best in holiday decorations and decorating ideas.

Customer Service

At Candle Factory Products you will always be "welcomed" into our store and "thanked" for visiting. Making your shopping experience as enjoyable as possible is our main objective and we make every effort to meet or exceed customer expectations. During the past 36 years we have build a very loyal customer following by providing superior customer service with high quality products at fair and reasonable prices.

The owners, Frank and Nancy, take a great deal of pride in their store, the quality of its merchandise and the loyal customers who return time and time again. Please visit our “real-world” store in Beachwood, New Jersey, or on the Internet at www.candles.us.com.

The Beanpod Product Program

This program is designed for any individual or organization that wishes to raise funds by selling an incredible product — Beanpod Soy Candles! Not only are these candles delightfully fragranced, but they are environmentally friendly and made exclusively from soybeans harvested from American farmers. Thus, every purchase supports American farmers and the American economy.

Table of Contents

The Soy Solution & Program Information	4
Beanpod Testimonials	5
Beanpod Program Prices	6
Single Fragrance Beanpod Jar, Votive & Tea Light Candles	7
Triple Pour Beanpod Jar Candles	8
Beanpod Soy Beads	9
Soy Beads Recipes	10
Soy Beads Melter	11

The Soy Solution

Beanpod Candles are poured in New Hampton, Iowa, the nation's heartland of soybean growers. The warmth of these candles reflects the hometown hospitality and strong, Midwestern work ethic of a community of less than 4,000 residents. The quality and passion show in the popularity of these soybean wax-based candles. Also, because these candles are exclusively harvested from American soybeans, every purchase supports the American farmer and provides another source of income back to the U.S. economy. Soybeans are not just environmentally friendly in the home, they are also biodegradable and a renewable resource. Plus, there is no wasted wax, because they burn clean.

Our Beanpod Candle Program allows individuals and organizations to raise funds by selling these high quality, environmentally friendly, deliciously fragrant candles. To get started all you need is: (1) this brochure, (2) our Beanpod Candle Program Order Form, (3) our Beanpod Order Summary Form and (4) the desire to share these incredible candles with your friends, family, neighbors, co-workers, etc.

How the program works and what you need to know, do and consider:

1. We do not provide samples. However, you may want to consider purchasing some candles, beads and melters to use as samples or for display purposes.
 2. Explain the products and show your samples to potential purchasers.
 3. Take orders using the Program Order Form and collect the appropriate monies from purchasers.
 4. Collect orders totaling at least \$500 and combine them on the Beanpod Order Summary Form. If your orders do not total at least \$500, we will not be able to provide you with the discount prices set forth on page 6 of this brochure.
 5. Send the Beanpod Order Summary Form to us along with your payment (the payment must be made by way of a single check for the total amount or a charge to your credit card)
 6. Upon receipt of your order and payment in full, we will process your information and ship the products to you for distribution to your purchasers. This usually takes approximately 3-4 weeks.
-

Beanpod Testimonials

Beanpod Candles have revolutionized the soy candle industry with its patent-pending innovations, including its TEMPACURE™ process, making it the only manufacturer of 100% stabilized soy wax candles today. These candles are manufactured with the idea that top-quality, home-grown products can make a difference in people's lives. Why burn a 100% stabilized soy candle?

- "I wanted to see if the burn time on Beanpod Candles™ was really greater than paraffin candles and burned the Fresh Linen 16 oz. with a white candle shade on top. 130 hours later, I was satisfied that Beanpod Candles™ burn longer and there was absolutely no soot on the shade at all."
Bob Gartzke – Chapel Gallery & Gifts – Lakewood, WI
 - "As an asthmatic I was never able to burn petroleum-based candles. I now burn Beanpod Candles™ every day in my home..."
Julie Fowler and Verna Ussery – Julie's Hallmark – Mountain Home, AR
 - "We burned paraffin candles and changed the air filter system every two months. Then we tried Beanpod Candles™ and haven't had to change the filters in six months."
Helene and Ron Jones – Creative Floral Designs By Helene – San Antonio, TX
 - **As featured on ABC Chicago TV Newscast**
Beanpod Candles™ was recently featured at the close of a Chicago ABC TV affiliate newscast. Having asthmatic reactions to candles in the past, TV anchorwoman Linda Yu was understandably hesitant about her scheduled feature on Beanpod Candles™. Toward the close of her newscast, with Beanpod Candles™ burning the entire time, Linda approached the presentation area to start the feature segment. "I have been sitting in this room for 45 minutes now (she took a deep breath)...and I can still breathe!"

recipes

Create your own unique and delicious scent combinations with our Soy Beads™. These innovative, aromatic beads are available in 47 of Beanpod's most popular scents for your creative fragrance-mixing pleasure. Imagine the aroma of a Key Lime Pie (whipped cream, lime, and graham cracker crust) or, if you're not sure where to start, check out Beanpod's 54 recipes on page 10, which include floral arrangements and earthen mixtures as well. Beanpod's stylish Soy Beads™ Melter is shown on page 11.

seasoning your candle

Soy Beads can also be used to spice up your traditional Beanpod Candles™ by adding a temporary infusion of new fragrance and color. For example, when you're in the mood for a change, add some Lemon Beads to your Green Tea candle for a refreshing twist, or temporarily change your Rose candle into a beautiful floral bouquet by sprinkling some purple Lilac Beads on top.

Soy Beads Melter

With a striking, contemporary design that will accent any room, the Soy Beads Melter lets you create your own unique fragrance blends in style. Simply place Soy Beads in the glass bowl and a tea light candle in the base. The heat from the candle melts the Soy Beads and blends your custom fragrance creation.
